

The Vanguard

Three Figures Art Sculpture

Thank you for bringing The Vanguard home. A good piece lasts for years when it gets a little regular attention, and none of it takes much effort. This guide covers what I would do to keep yours looking the way it did on day one.

Marc, Founder

EVERYDAY CARE

- Dust each figure weekly with a dry microfiber cloth or soft brush.
- Do not buff or polish the matte finish. Rubbing can leave shiny patches.
- Add a felt pad under each figure.
- Keep them dry. These are iron, so damp left sitting can start rust.

LARES · HOME

CLEANING, STEP BY STEP

- 1 Dust each figure on its own with a dry cloth or soft brush.
- 2 For marks, use a barely damp microfiber cloth. Try it on a hidden spot first.
- 3 Dab and wipe lightly rather than rubbing in circles.
- 4 Dry right away with a clean, dry cloth.

PLEASE AVOID

- Polish, wax, or oil, which turn a matte finish patchy
- Abrasive pads and scouring powders
- Letting water sit on the surface, which can rust iron
- Stacking or knocking the figures against each other

PLACEMENT AND HANDLING

- Each figure has real weight. Pick them up one at a time.
- Place them on a level, stable surface such as a console or shelf.
- Felt pads protect wood and glass.

GOOD TO KNOW

The set can be grouped or spread across a room. Whichever you choose, clean them one at a time so you are never carrying more than you can hold.

LARES · HOME

In ancient Rome, the Lares were the guardians of the household. We took the name because a home should feel looked after, and so should the things in it.
